Customer Support:
Atlas Support personnel are trained specifically on the Atlas Chiropractic Software. On occasion, they are able to assist with general computer support (networking, antivirus, and configuration). Atlas recommends that issues outside of the scope of Atlas Support be directed to the appropriate Support professional. A qualified, onsite IT technician can provide you with the most accurate information to resolve your Technical Issues. Atlas Support may be able to assist your technician in resolving issues regarding your Operating System or System Maintenance, to help facilitate the proper function of Atlas.
