

# Release Notes: Atlas Chiropractic Systems Update

ver. 4.8.0

## How do I know which version I am running?:

Check the title bar in your Atlas Software. The title bar displays the Atlas Chiropractic Software name, the Current Logged In Atlas User, the Current Logged in Windows (Computer) User and the current Program (P) and Database (D) version number.

## What's New? Quick View:

- Workshops can now be inactivated
- Service, Inventory, and Patient categories can be inactivated
- Option added to System Settings to preview receipts (allows printer selection, email, and # copies)
- Improved Article browse “view” to see defined articles at a glance
- Reasons for dropping out of care added to the SafetyNet reasons setup
- Towns and Prov/State setup has been combined in a new list view to simplify set up
- Balance transfers can now be made to different providers/plans/accounts either between 2 patients or within a single account
- Support has been added to allow for image ordering from multiple 3rd party imaging softwares simultaneously
- New Info option when right clicking on an appointment will display who booked the appointment and when (including who modified and when the modification occurred)
- Option added in System Settings to set the bill Monthly flag when creating a new Patient
- Insurance Companies that issue a “virtual credit card” can now be handled by setting the insurance file as not assigned to Provider with the no submission option
- Resubmission flag added to claim modification and 5010 submission files
- After adding new Credits Atlas no longer requires a restart
- Removed ability to resize columns on the Appointment and Transaction Ledgers
- Removed redundant form Holidays as they can be set using Vacations
- New button when entering phone numbers allows the setting of a preferred number
- User defined colours are now available for Patient Notes
- Preview button added to confirms list to show the next day’s list
- New options under System Settings/Colour allow the modifying of Sign In background and font colours
- Payment type can now be changed when processing Post Dated Payments
- New option allows new entry in VTC Yellow notes to be entered at the top of the note
- Search in Translations now filters as searching
- New Hold option when CA assigns patients to rooms allows CA to hold patient and call next
- Hot Keys added to buttons on the patient profile
- Reason patients dropped out of care can now be stored in Atlas (for future reporting)
- Video Exercises button added to VTC screen to interface with myRxX.com
- Personal Injury Intake forms now available by request for Atlas Intake Apps users
- Paper Assessment form (based on patient’s Intake form) can be optionally created when Intake form is downloaded (by request - contact support for details)

## What's Fixed? Quick View:

- Simplification of the article scheduler
- When manually calling patients to tables CHA will only be prompted once for room assignment
- Patient Profile Menu can be now assigned security roles to user groups
- Email confirmed appointments marked as confirmed after each email sent instead of at the end of the batch to prevent status confusion
- Forced refresh of new patient's appointment ledger to show initial appointment
- Corrected refresh of document listing after deleting a document
- Inactive Providers are listed but disabled with setting up a patient file
- Pitstop window no longer appears multiple times after logout/login
- Daily Detail with Balance and by Pro reviewed and optimized for more efficient reporting
- Add Family Member button no longer sets the referral method on the new patient
- Sending Individual confirm texts from the safetynet now verifies the SMS number
- Intake forms now visible under documents tab in CHAS
- New services added to insurance sync immediately with previously created insurance files
- When editing existing insurance payments appropriate outstanding claims are visible
- Co-pay amounts not billed at the time of service can now be edited when modifying an existing payment
- Suspended insurance remains suspended when it expires (it will still renew)
- Amount tendered cannot be changed after entering postdated payments
- Invalid appointments report shows all appointments
- Write-off report properly pulls date range when run the second time
- Reviewed refresh of the schedule after changing or deleting appointments for speed
- Changed message when no family members are selected when signing in
- added support for walk-in patients with inactive default providers
- Total Due field now properly updates in the Modify Transaction screen
- Corrected a rare issue which caused incorrect plan transfers to appear on family member's accounts
- Double clicking Save when adding images will no longer create duplicate entries
- Double clicking Edit Patient will no longer open the form twice
- Opening VTC pending pitstops now displays the proper patient name
- Changing amount tendered in transaction modify screen will refund through PowerPay when original payment through PowerPay
- Invalid Appointments report no longer includes past appointments
- Intake form Consent section expanded to ensure the entire consent section is in the downloaded copy
- Amount tendered can no longer be changed after creating post date payments
- Payment expiry report properly ignores invalid dates
- Balance Transfer now warns users when no amount is selected for transfer
- Patient's visit count since first visit on VTC (FV) expanded to display up to 9999 visits

**Customer Support:** Atlas Support personnel are trained specifically on the Atlas Chiropractic Software. On occasion, they are able to assist with general computer support (networking, antivirus, and configuration). Atlas recommends that issues outside of the scope of Atlas Support be directed to the appropriate Support professional. A qualified, onsite IT technician can provide you with the most accurate information to resolve your Technical Issues. Atlas Support may be able to assist your technician in resolving issues regarding your Operating System or System Maintenance, to help facilitate the proper function of Atlas.

Support Contact Information:

Mon-Thur: 8am to 7:30pm EST Fri: 8am to 4:30pm EST

Phone: 1-866-76ATLAS (2-8527)

Fax: 1-226-315-1900

Email: [support@atlaschirosys.com](mailto:support@atlaschirosys.com)
