

Release Notes: Atlas Chiropractic System Update v5.29

Version: 5.29

How do I know which version I am running?

Check the title bar in your Atlas Software. The title bar displays the Atlas Chiropractic Software name, the Current Logged In Atlas User, the Current Logged in Windows (Computer) User and the current Program (P) and Database (D) version number.

What's Fixed

- Clicking confirm on Safetynet grid will clear the entry from the Safetynet after email successfully sent
- Modified data filter on statement report to include payments made on the ending date select
- Split queries used to generate the statement to increase efficiency and facilitate future speed improvements
- Added code to Automator tasks to set license key for updated email control
- Modified error logging code of Confirms Automator task (acsconfirms) to continue processing remaining confirms after encountering an email confirm request without an email address

Customer Support:

Atlas Support personnel are trained specifically on the Atlas Chiropractic Software. On occasion, they are able to assist with general computer support (networking, antivirus, and configuration). Atlas recommends that issues outside of the scope of Atlas Support be directed to the appropriate Support professional. A qualified, onsite IT technician can provide you with the most accurate information to resolve your Technical Issues. Atlas Support may be able to assist your technician in resolving issues regarding your Operating System or System Maintenance, to help facilitate the proper function of Atlas.
