Release Notes: Atlas Chiropractic System Update v5.25

Version: 5.25

> ℹ️ **How do I know which version I am running?**
>
> Check the title bar in your Atlas Software. The title bar displays the Atlas Chiropractic Software name, the Current Logged In Atlas User, the Current Logged in Windows (Computer) User and the current Program (P) and Database (D) version number.

What's New

- Problems section of the VTC updated to use a separate table with start and end dates
- Inventory insurance modifiers expanded to 10 characters
- Taxonomy code added to provider as well as clinic insurance setup
- OpenEdge receipt printing can be set to print 0,1, or 2 copies by default and can be overridden when entering transactions
- Service Location code changed for MSP submissions.

What's Fixed

- Search by phone modified to search all phone numbers
- Copying provider appointments no longer generates an error on save
- Weekly totals grid on VTC enlarged to display month and day
- Family Tree changes to prevent conflicts with other controls
- Sending SMS no longer overwrites the windows clipboard
- Additional validation when searching patients by date of birth
- Added a "none" option to the referring profile dropdown
- Confirms added to the safetynet without a contact method default to phone
- Updated calendar for pitstop date entry
- Error when loading patients from the room grid of the legacy VTC corrected
- "Today's appointment" colouring of the appointment ledger again takes precedence over confirmed
- Expanded provider total label on statements
- Enhanced stability in decryption process
- Added support for plan transfers in the tax statements
- Clarified warning message when adding users
- Speed improvements to saving appointment mapping
- When sending confirms additional checks added to prevent sending duplicate confirms when sent from multiple instances
- Warning added when exiting receiving without saving
- Loading the appointments window edited to increase efficiency
- Problems now directly linked to subjective questions that relate to problems
- Max visits for insurance phases now expire the phase when reached
- Ensured all times are logged as a patient move through the office for the time analysis report
- Corrected link when setting the form to send for specific appointment types with online booking

- Problems no longer overlap the services list on the VTC
- Speed enhancements to the backup process

Flex: What's New

- Discipline filter dropdown added to flex VTC
- Server IP added to the status window and title bar when running Flex

Flex: What's Fixed

- Prevented Flex from creating empty room entries when arriving patients

Customer Support:

Atlas Support personnel are trained specifically on the Atlas Chiropractic Software. On occasion, they are able to assist with general computer support (networking, antivirus, and configuration). Atlas recommends that issues outside of the scope of Atlas Support be directed to the appropriate Support professional. A qualified, onsite IT technician can provide you with the most accurate information to resolve your Technical Issues. Atlas Support may be able to assist your technician in resolving issues regarding your Operating System or System Maintenance, to help facilitate the proper function of Atlas.

Support Contact Information:

Mon-Thur: 8am to 7:30pm EST Fri: 8am to 4:30pm EST

Phone: 1-866-76ATLAS (2-8527)

Fax: 1-226-315-1900

Email: support@atlaschirosys.com
